

Claim Case Study: Equestrian

Loss of organ, broken bones and hospitalisation.

Taking part in the things you love most, can sometimes lead to knocks and bumps that need more than just a bandage. MultiProtect is designed to give you extra financial support if you suffer from a specified accidental injury or need to spend time in a UK hospital following an accident.

Case Study

Miss H is an equestrian head girl and had attended a work trial at a potential new employer. While riding one of the horses she was thrown off, her foot was caught in the stirrup iron and she was dragged along through a field.

Miss H sustained a lacerated liver and spleen, 4 fractured ribs and a fractured thumb along with 8 x 24hr periods of hospitalisation. Sadly, due to the injury to her spleen she required an emergency total splenectomy (removal of spleen).
