Helping to get you back on your feet

When everything goes like clockwork, life is great. We don’t like to think that life might not go according to plan, but the truth is it that sometimes it doesn’t. So it’s important to be prepared should the unexpected happen.

Britain’s homes are now far more dangerous than its roads, with more than twice as many people dying in accidents like trips and falls than in car crashes*.

This is where MultiProtect can help. We provide cash payments if you suffer from an accidental injury listed, or you need to spend time in a UK hospital. So whether it’s a broken bone or an accident that could have a significant impact on your life, you can have peace of mind that you’re in control.

Protecting your day-to-day, everyday

When an accident happens, for example you break your leg, here are just some of the ways this could impact your lifestyle:

- Unable to get to work resulting in a loss of income
- Need to pay out for taxis rather than public transport to get to hospital appointments
- Rely on the support from friends and family to help with childcare whilst you’re less mobile
- Once you’ve returned to work you may need time off for rehabilitation appointments
- Unable to go to the gym or use sports memberships that you have a contract with
- Difficulties paying your bills and financial commitments (e.g., rent or mortgage)

Here to help 24/7

It’s not just the physical impact an unexpected accident or injury can have. It’s a hard time for you. That’s why with MultiProtect, we offer emotional and practical support through our Wellbeing Support Centre, available 24/7 at no extra cost to you.

Details can be found in your Welcome pack.
