10 year back tested performance - Pension

Source: BlackRock unaudited by external third parties, September 2015 and Lipper, a Thomson Reuters company, November 2018

The above chart shows the simulated performance of the MetLife Blackrock Global Growth Fund to 30 September 2015 followed by actual performance of the fund. The chart also shows the performance of the ABI UK Flexible Investment Sector for comparison purposes. The fund performance shown above includes fund management charges but not any product or guarantee charges so as to maintain an equivalent comparison.

The chart is shown for illustration purposes only. Past performance is not a guide to future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and you may not get back the amount invested. Investments in MetLife products are not like a bank or building society account which accrue interest.

Simulated performance has been provided for illustrative purposes only and will not represent the actual holdings of the funds. BlackRock uses simulated performance as a proof of concept for new investment strategies and not to predict the investment outcomes.

MetLife nor BlackRock makes no representations or warranties as to the accuracy or completeness of any past, estimated or simulated performance results contained herein, and further nothing contained herein shall be relied upon as a promise by, or representation by MetLife or BlackRock whether as to past or future performance results.

10 year back tested performance - Pension

Source: Fidelity Worldwide Investment, Bloomberg, September 2015 and Lipper, a Thomson Reuters company, November 2018

The above chart shows the simulated performance of the MetLife Fidelity Corporate Bond Feeder Funds to 30 September 2015 followed by actual performance of the funds. The chart is shown for illustration purposes only. Past performance should not be used as a guide for future performance and should not be the sole factor of consideration when selecting a product. All financial investments involve an element of risk. Therefore, the value of your investment and you may not get back the amount invested. Investments in MetLife products are not like a bank or building society account which accrue interest. Fidelity Worldwide Investment and MetLife make no representations or warranties as to the accuracy or completeness of any past, estimated or simulated performance results contained herein, and further nothing contained herein shall be relied upon as a promise by, or representation by Fidelity Worldwide Investment and MetLife whether as to past or future performance results. Basis: Merrill Lynch Euro Sterling Index Excess Return + Merrill Lynch Constant Maturity Swap Indices (Total Return). NB: 3 Year Constant Maturity Swap Index is simulated by taking 66% of 2 Year Constant Maturity Swap Index and 33% of 5 Year Constant Maturity Swap Index. Simulated performance until 30 September excludes any potential additional performance for "active management" of the investments.
