Before you start

You should complete this form if you want to withdraw money from your pension pot.
Please call us on 0800 022 4443 to request an illustration to show you how taking money from your pension pot will affect your pension savings with MetLife. This will help you to plan effectively for your future.
If you are unsure about any aspect of this form, please take advice from your Financial Adviser before you fill in the form.

**Please note that this form needs to be fully completed and signed.
If the form is not fully completed this could delay the processing of your payment.**

Financial advice

Please tick a box below to confirm what financial advice, if any, you have received:

- I have received advice from my Financial Adviser. (Adviser must sign in Section 5)
- I have received guidance from Pension Wise but am not using a Financial Adviser. (Please read the guidance below)
- I have not received guidance from Pension Wise and I am not using a Financial Adviser. (Please read the guidance below)

Guidance for point 2. and 3.
If you have ticked boxes 2 or 3, please call us on 0800 022 4443 before sending this withdrawal form.
As you are making a decision without receiving regulated financial advice, we are obliged to make sure that you understand the impact of taking money from your pension pot before we make any payments to you.
We cannot make any payments until we have received your call.

If you have received an illustration from us showing the effect of withdrawing these benefits, please provide the illustration reference number here:

Section 2 - Withdrawing money from your pension pot

From age 55 you are able to start using the money you've saved in your pension. There are different ways of doing this, each with their own tax implications.

Income drawdown is one way of withdrawing money from your pensions pot. It allows you to receive the tax-free part of your pension (usually 25% of your total pot) as either a single lump sum or in stages, and to take the taxable part as a regular income or lump sum when you want.

By withdrawing money from your pension pot in this way you move some or all of your pension pot into what is referred to a 'drawdown'. The money that remains in your pension pot, in drawdown and not in drawdown, remains invested in your chosen pension fund(s) meaning its value can go down as well as up, and that you should monitor its performance regularly.

If all or some of your pension pot is not in drawdown, there is another way to take cash lump sums from your pension savings flexibly through what is referred to as an uncrystallised funds pension lump sum (also known as a taxable lump sum.) Withdrawing money from your pension pot in this way means 25% will be tax free, and 75% will be taxed as income. What you don't take stays invested in your chosen pension fund(s), meaning its value can go down as well as up. You should monitor its performance regularly.

Please refer to the Money Advice Service "Your Pension: it's time to choose" guide for further information.

2.1 How do you want to withdraw money from your pension pot? You must tick one option.

Tax free lump sum and income - please complete sections 2.2, 2.3 and 2.4.

Tax free lump sum only - please complete sections 2.2 and 2.3.

Income only (**including one off income payments**) - if you are already in drawdown, please complete section 2.4 only.
 if you are moving funds into drawdown, please complete sections 2.2 and 2.4.

or

Uncrystallised funds pension lump sum (**not available from funds already in drawdown**) - please complete section 2.5.

2.2 How much of your pension pot would you like to move into drawdown?

25% of the drawdown amount can normally be taken as a tax free lump sum.

If you do not take your tax free lump sum when you enter drawdown, you will not be able to take this in the future.

2.4 Do you want to take an income?

Any payment of income from Secure Income funds, whether regular or one-off, is guaranteed income (up to the guaranteed amount). If you haven't previously taken income this action could set your Guaranteed Income Percentage and any Income Deferral Increases will stop.

If you are currently in capped drawdown and request an income higher than your GAD maximum, you will convert to flexi-access drawdown and will be subject to the money purchase annual allowance. This will reduce the maximum amount you can pay into all of your pensions.

If you would like to set up or amend a regular income payment, please choose one of the following options:

I do not have an existing income instruction, and would like to set up a new instruction.

I have an existing income instruction and would like to change my instruction. I understand this will replace my existing instruction.

I have an existing income instruction and would like to increase my income amount to the figure specified. I understand this will be on the same frequency and source of funds as my existing instruction.

If you would like to take a one-off income payment, please choose one of the following options:

I would like to take a one off income payment and continue any existing income instruction unaltered.

I would like to take a one off income payment and cease any existing income instruction following this payment.

I would like to take a one off income payment and do not have an existing income instruction.

Any one off income payment may impact on the amount of future income available to you from your pension.

If the payment is taken from your guaranteed funds this will result in a proportionate reduction to the guaranteed benefits provided. More information is available in your policy terms and conditions that were sent to you when you bought the pension.

The table below shows an example of how a future value may be affected where a customer is requesting a one off income payment of £10,000. In this example the investment value of the policy starts at £100,000. For each Growth Rate, the two columns compare the projected investment values with and without the one off income payment being paid.

End of year	0.73% - Growth Rate		3.73% - Growth Rate		6.73% - Growth Rate	
	With no one off income payment	Taking a £10,000 one off income payment	With no one off income payment	Taking a £10,000 one off income payment	With no one off income payment	Taking a £10,000 one off income payment
5	£93,900	£84,500	£109,000	£98,200	£125,000	£113,000
10	£87,500	£78,800	£118,000	£106,000	£158,000	£142,000
15	£80,600	£72,600	£129,000	£116,000	£201,000	£180,000
20	£73,100	£65,900	£139,000	£125,000	£254,000	£228,000

Notes:

- **With no one off income payment** - this column shows the projected values after deducting the policy, guarantee and fund charges.
- **Taking a £10,000 one off income payment** - this column shows the projected values after deducting the policy, guarantee and fund charges, plus the £10,000 one off income payment.
- **The Growth Rates** used in this example are based on an investment in Secure Income funds through Active Asset Allocation, max Growth Asset 35%.

For regular or one off income payments, please complete the table below:

INCOME	How much of guaranteed income or Max GAD (if capped drawdown) or pa, gross or Withdraw your whole pension pot (full withdrawal)	Which are invested from All funds Secure Income funds Secure Capital funds Other funds, please detail below:	Frequency if you are setting up regular payments Monthly Quarterly Termly Half yearly Annually
	When would you like your payment to be made?		
<p>To withdraw any remaining tax free lump sum please complete sections 2.2 and 2.3</p>			
Unless you specify a date, we will pay the income into your account as soon as it is available. This is normally 10 - 15 working days from receipt of this form. If your requested payment date cannot be met, we will aim to pay you on the nearest working day to that date. We will deduct the money from your policy up to four working days before the payment is in your account.			

2.5 Do you want to take an uncrystallised funds pension lump sum?

25% will be tax-free and the remaining 75% will be taxed as income.
 If you are currently in capped drawdown and request an uncrystallised funds pension lump sum, you will convert to flexi-access drawdown and will be subject to the money purchase annual allowance.
 A taxable lump sum will be paid across all funds.
 This will reduce the maximum amount you can pay into all of your pensions.

3.5 If the value of my pension pot exceeds my remaining lifetime allowance entitlement, I want the excess:

Paid to me as a lump sum, minus the appropriate tax charge

To provide me with an income after the appropriate tax charge has been deducted

Section 4 - Member Declaration

I have read the policy terms and conditions and agree to be bound by them at all times. I understand that if there is any conflict or discrepancy between the information contained in this form and the policy terms and conditions, the provisions of the policy terms and conditions, will prevail.

- a. I confirm that I have not received, in the past 12 months, a cumulative tax free lump sum amount of £7,500 and intentionally used this, either directly or indirectly, to obtain further UK income tax relief by 'recycling', that is by using the tax free lump sum to significantly increase the contribution into this Scheme or any other. I also confirm that I will not 'recycle' any tax free lump sum received under this Scheme.
- b. If I am taking drawdown with MetLife, I confirm that I do not intend to move any further pension funds into Drawdown between the date of completing this form and the date MetLife confirm my pension fund has been moved to Drawdown. If I do, I undertake to notify MetLife in writing immediately. I understand that if I do not notify MetLife, I may be subject to additional tax and/or HMRC charges.
- c. I understand that if I take an uncrystallised funds pension lump sum or take any income from flexi-access drawdown I am subject to the money purchase annual allowance.
- d. If I have taken benefits from any pension arrangement in a way which means I am subject to the money purchase annual allowance (MPAA), I have supplied the date the MPAA first applied to me in section 3 of this form.
- e. I understand that where I trigger the money purchase annual allowance, my contribution allowance will reduce. I also understand that it is my responsibility to keep a record of the contributions made by me or in respect of me to the Scheme and to any other registered pension scheme, so that I know if the annual allowance or money purchase annual allowance is exceeded. MetLife will not be held responsible where the acceptance of a contribution results in me becoming liable to an annual allowance charge.
- f. If I am converting a capped drawdown arrangement(s) to a Flexi-Access drawdown arrangement(s), I will be subject to the money purchase annual allowance (MPAA) from the date of my first Flexi-Access income payment.
