Case Study

Mr and Mrs G both took out cover for themselves as well as the Extended Cover option to provide protection for their children. Sadly, just six months later one of their children was diagnosed with Leukaemia. Within 7 days, MetLife phoned Mr and Mrs G to let them know that their claim had been approved. They received £25,000 from their policies, helping to provide financial certainty at a very difficult time. 12 months later their child had to go back into hospital for further treatment and MetLife were able to make an additional payment of £300 to the family for the time their child spent in hospital.
