

A smiling man with dark curly hair is carrying a young boy on his shoulders. They are both smiling and looking towards the right. The man is wearing a light blue sweater, and the boy is wearing a dark blue and white striped shirt. They are on a sandy beach with the ocean and cliffs in the background.

Why MultiProtect?

The growing need for everyday protection?

Recently, we conducted extensive customer and adviser research to understand what's important to both you and your clients. Overwhelmingly, we found that clients each have their own individual needs, and so having a policy that helps them feel confident in their daily lives is paramount.

That's why we provide MultiProtect.

With its enhanced features that cover what clients really need, it can be the perfect fit for their protection packages. And with no health questions and simple application process, we can often cover a wide range of circumstances quickly and easily.

Who can benefit?

MultiProtect can be the perfect fit for a wide range of circumstances. It has no underwriting, wide accessibility, and a range of optional cover, so there are lots of clients who could benefit. Let's have a look at four groups that could benefit from MultiProtect.

Families

Because MultiProtect covers everyday accidents and illnesses, including hospitalisation in the UK as well as select European countries, it's a great addition to family protection packages.

We offer broken bone cover, as well as pregnancy-related hospitalisation cover – and applications are open to people aged 18 to 64. We offer optional Child Cover too, for those playground accidents no one is expecting.

Optional Child Cover can support clients through difficult times, including if their child is diagnosed with cancer – excluding less advanced cases. For children aged six months to 18 years (or 23 if in full-time education).*

Active lifestyles

Those with active lifestyles – whether they play a sport or simply cycle to work – could benefit from the protection of Active Lifestyle Cover.

That's because it covers additional injuries including tendon ruptures, some dislocations, and full and partial ligament tears. So if they're injured doing the things they love, they've got the extra level of cover they need.

Active Lifestyle Cover is an optional add-on that aims to help your clients protect themselves in the event of a sustaining specified bodily injuries.

Self-employed, temporary, and freelance workers

If your clients are self-employed or do 'gig' based work, they might not get paid if they need to take time off work due to an accident or illness. MultiProtect can help to plug that gap and offer the protection they need.

Whether your client owns their own business or works in a warehouse for an online delivery company, MultiProtect could support them.

Manual workers

When it comes to physically demanding jobs – which can come with an extra level of personal risk – we can protect your clients too.

If your client needs protection for accidental permanent injuries or total permanent disablement, the benefit for these with MultiProtect is up to £250k; should the client be unable to look after themselves ever again. And because hospital stays in the UK and select European countries are covered too, your clients will have peace of mind every day.

Life-changing injuries? Unable to care for themselves if the worst should happen? MultiProtect can cover your clients for all this and more.

Why MultiProtect?

Of course, finding clients you could help is just the first step.

Here's a quick reminder of why MultiProtect could be the perfect fit for their protection packages:

Premiums start at just **£9 a month**, with optional cover starting from an additional £1 a month.

Cover is available up to the **age of 75**.

Optional **Specialist Healthcare Cover** is also available.

Taking out cover is easy, with a smooth **process you can trust**.
